

CERTIFICATION OF PRIMARY SOURCE DATA FOR THE CALIFORNIA STATE OPTOMETRY BOARD

The California State Board of Optometry (CSBO) contracts with the Department of Consumer Affairs (DCA) to provide its website and actual operation thereof. The website is the property of DCA and, while system security is ultimately DCA's responsibility, DCA agrees to not edit or alter information, in any way, provided by CSBO. The information that CSBO provides to DCA is a true and accurate reflection of our licensing and enforcement records derived from primary source documents. Accordingly, DCA's website reflects our primary source information. Information is updated in real time and the information is current as of the date indicated on the site.

It is CSBO's intent to provide accurate license information and to allow users the ability to verify licenses; however your organization is ultimately responsible for any decision it may make based on information obtained from the CSBO website.

Sincerely,

Gregory Pruden
