Subject: **Agenda Item 4 – Update, Discussion and Possible Action to Identify Potential Changes Needed to Harmonize the Optometry and Registered Dispensing Opticians (RDO) Program Practice Acts; Potential Recommendations to Full Board**

During a previous Board meeting, the Board requested legal counsel's assistance in identifying potential contradictory or duplicative provisions if the Optometry and Registered Dispensing Opticians (RDO) Program acts were combined.

Attached is the revised draft of the combined acts, including Sunset Bill AB 1708 provisions. AB 443 revisions have not been added at this point, as they are only related to optometry scope of practice. The draft is 76 pages, and redlined/highlighted with any notes on the right side. Some comments:

- Generally, Articles 1-8 as proposed pertain solely to optometrist, unless noted. Where it would not be clear that a provision related only to optometrists, counsel has suggested inserting "optometrist."
- Counsel made minor edits to Articles 1-8 related to references to Chapters 5.45 and 5.5 that would be necessary by merging the acts.
- "New" Articles 9, 10, 10.2, 10.5, 10.7, and 10.9 are the NCLS/RDO chapters with new article numbers.
- Counsel kept all section numbers from the current BPC the same; those would ultimately be changed, starting after the last section number of Article 8. That would be a final task after all placement considerations were considered.
- There were slightly inconsistent provisions between the programs and no wholly duplicative provisions. Therefore, there are no removals of whole sections of the RDO/NCLS program provisions. Counsel commented on the inconsistencies.

(a) Before engaging in the practice of optometry, each licensed optometrist shall notify the board in writing of the address or addresses where he or she is to engage in the practice of optometry and, also, of any changes in his or her place of practice. After providing the address or addresses and place of practice information to the board, a licensed optometrist shall obtain a statement of licensure from the board to be placed in all practice locations other than an optometrist's principal place of practice. "Temporary practice" is defined as the practice of optometry at locations other than the optometrist's principal place of practice for not more than five calendar days during a 30-day period, and not more than 36 days within a calendar year. This limitation shall apply to all practice locations where the licensed optometrist is engaging in temporary practice, not to each practice location individually. - (c) His or her place of practice.

§ 3077. Branch office licenses

As used in this section, “office” means any office or other place for the practice of optometry.

(a) No person, singly or in combination with others, may have an office unless he or she is licensed to practice optometry under this chapter.

(b) An optometrist, or two or more optometrists jointly, may have one office without obtaining a branch office license from the board.

(c) On and after October 1, 1959, no optometrist, and no two or more optometrists jointly, may have more than one office unless he or she or they comply with the provisions of this chapter as to an additional office. The additional office, for the purposes of this chapter, constitutes a branch office.

(d) Any optometrist who has, or any two or more optometrists, jointly, who have, a branch office prior to January 1, 1957, and who desire to continue the branch office on or after that date shall notify the board in writing of that desire in a manner prescribed by the board.

(e) On and after January 1, 1957, any optometrist, or any two or more optometrists, jointly, who desire to open a branch office shall notify the board in writing in a manner prescribed by the board.

(f) On and after January 1, 1957, no branch office may be opened or operated without a branch office license. Branch office licenses shall be valid for the calendar year in or for which they are issued and shall be renewable on January 1 of each year thereafter. Branch office licenses shall be issued or renewed only upon the payment of the fee therefor prescribed by this chapter.

On or after October 1, 1959, no more than one branch office license shall be issued to any optometrist or to any two or more optometrists, jointly.

(g) Any failure to comply with the provisions of this chapter relating to branch offices or branch office licenses as to any branch office shall work the suspension of the optometrist license of each optometrist who, individually or with others, has a branch office. An optometrist license so suspended shall not be restored except upon compliance with those provisions and the payment of the fee prescribed by this chapter for restoration of a license after suspension for failure to comply with the provisions of this chapter relating to branch offices.

(h) The holder or holders of a branch office license shall pay the annual renewal fee therefor in the amount required by this chapter between the first day of January and the first day of February of each year. The failure to pay the fee in advance on or before February 1 of each year during the time it is in force shall ipso facto work the suspension of the branch office license. The license shall not be restored except upon written application and the payment of the penalty prescribed by this chapter, and, in addition, all delinquent branch office fees.

(i) Nothing in this chapter shall limit or authorize the board to limit the number of branch offices that are in operation on October 1, 1959, and that conform to this chapter, nor prevent an optometrist from acquiring any branch office or offices of his or her parent. The sale after October 1, 1959, of any branch office shall terminate the privilege of operating the branch office, and no new branch office license shall be issued in place of the license issued for the branch office, unless the branch office is the only one operated by the optometrist or by two or more optometrists jointly.

Nothing in this chapter shall prevent an optometrist from owning, maintaining, or operating more than one branch office if he or she is in personal attendance at each of his or her offices 50 percent of the time during which the office is open for the practice of optometry.

(j) The board shall have the power to adopt, amend, and repeal rules and regulations to carry out the provisions of this section.

(k) Notwithstanding any other provision of this section, neither an optometrist nor an individual practice association shall be deemed to have an additional office solely by reason of the optometrist's participation in an individual practice association or the individual practice association's creation or operation. As used in this subdivision, the term "individual practice association" means an entity that meets all of the following requirements:

(1) Complies with the definition of an optometric corporation in Section 3160.

(2) Operates primarily for the purpose of securing contracts with health care service plans or other third-party payers that make available eye/vision services to enrollees or subscribers through a panel of optometrists.

(3) Contracts with optometrists to serve on the panel of optometrists, but does not obtain an ownership interest in, or otherwise exercise control over, the respective optometric practices of those optometrists on the panel.

Nothing in this subdivision shall be construed to exempt an optometrist who is a member of an individual practice association and who practices optometry in more than one physical location, from the requirement of obtaining a branch office license for each of those locations, as required by this section. However, an optometrist shall not be required to obtain a branch office license solely as a result of his or her participation in an individual practice association in which the members of the individual practice association practice optometry in a number of different locations, and each optometrist is listed as a member of that individual practice association.

§ 3078. Use of fictitious names; Permits

(a) It is unlawful to practice optometry under a false or assumed name, or to use a false or assumed name in connection with the practice of optometry, or to make use of any false or assumed name in connection with the name of a person licensed pursuant to this chapter. However, the board may issue written permits authorizing an individual optometrist or an optometric group or optometric corporation to use a name specified in the permit in connection with its practice if, and only if, the board finds to its satisfaction all of the following:

(1) The place or establishment, or the portion thereof, in which the applicant or applicants practice, is owned or leased by the applicant or applicants, and the practice conducted at that place or establishment, or portion thereof, is wholly owned and entirely controlled by the applicant or applicants. However, if the applicant or applicants are practicing optometry in a community clinic, as defined in subdivision (a) of Section 1204 of the Health and Safety Code, this subdivision shall not apply.

(2) The name under which the applicant or applicants propose to operate is in the judgment of the board not deceptive or inimical to enabling a rational choice for the consumer public and contains at least one of the following designations: "optometry" or "optometric." However, if the applicant or applicants are practicing optometry in a community clinic, as defined in subdivision (a) of Section 1204 of the Health and Safety Code, this subdivision shall not apply. In no case shall the name under which the applicant or applicants propose to operate contain the name or names of any of the optometrists practicing in the community clinic.

(3) The names of all optometrists practicing at the location designated in the application are displayed in a conspicuous place for the public to see, not only at the location, but also in any advertising permitted by law.

(4) No charges that could result in revocation or suspension of an optometrist's license to practice optometry are pending against any optometrist practicing at the location.

(b) Permits issued under this section by the board shall expire and become invalid unless renewed at the times and in the manner provided in Article 7 (commencing with Section 3145) for the renewal of licenses issued under this chapter.

(c) A permit issued under this section may be revoked or suspended at any time that the board finds that any one of the requirements for original issuance of a permit, other than under

paragraph (4) of subdivision (a), is no longer being fulfilled by the individual optometrist, optometric corporation, or optometric group to whom the permit was issued. Proceedings for revocation or suspension shall be governed by the Administrative Procedure Act.

(d) If the board revokes or suspends the license to practice optometry of an individual optometrist or any member of a corporation or group to whom a permit has been issued under this section, the revocation or suspension shall also constitute revocation or suspension, as the case may be, of the permit.

(m) (1) Committing or soliciting an act punishable as a sexually related crime, if that act or solicitation is substantially related to the qualifications, functions, or duties of an optometrist.

(w) Except for good cause, the knowing failure to protect patients by failing to follow infection control guidelines of the board, thereby risking transmission of bloodborne infectious diseases from optometrist to patient, from patient to patient, or from patient to optometrist. In administering this subdivision, the board shall consider the standards, regulations, and guidelines of the State Department of Public Health developed pursuant to Section 1250.11 of the Health and Safety Code and the standards, guidelines, and regulations pursuant to the California Occupational Safety and Health Act of 1973 (Part 1 (commencing with Section 6300) of Division 5 of the Labor Code) for preventing the transmission of HIV, hepatitis B, and other bloodborne pathogens in health care settings. § 2555.1. Disciplinary action upon conviction of charge related to qualifications, functions, and duties of dispensing optician

In the discretion of the board, a certificate issued ~~hereunder~~ under this article may be suspended or revoked if an individual certificate holder or persons having any proprietary interest who will engage in dispensing operations, have been convicted of a crime substantially related to the qualifications, functions and duties of a dispensing optician. The record of conviction or a certified copy thereof shall be conclusive evidence of the conviction.

A plea or verdict of guilty or a conviction following a plea of nolo contendere made to a charge substantially related to the qualifications, functions and duties of a dispensing optician is deemed to be a conviction within the meaning of this article. The board may order the certificate suspended or revoked, or may decline to issue a certificate, when the time for appeal has elapsed, or the judgment of conviction has been affirmed on appeal or when an order granting probation is made suspending the imposition of sentence, irrespective of a subsequent order under the provisions of Section 1203.4 of the Penal Code allowing such person to withdraw his or her plea of guilty and to enter a plea of not guilty, or setting aside the verdict of guilty, or dismissing the accusation, information or indictment.

The proceeding under this section shall be conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code, and the board shall have all the powers granted therein.

(a) Except as authorized by Section 655, it is unlawful for a registered dispensing optician to do any of the following: to advertise the furnishing of, or to furnish, the services of an optometrist or a physician and surgeon, to directly employ an optometrist or physician and surgeon for the purpose of any examination or treatment of the eyes, or to duplicate or change lenses without a prescription or order from a person duly licensed to issue the same. For the purposes of this section, “furnish” does not mean to enter into a landlord-tenant relationship of any kind.

(b) Notwithstanding Section 125.9, the board may, by regulation, impose and issue administrative fines and citations for a violation of this section or Section 655, which may be assessed in addition to any other applicable fines, citations, or administrative or criminal actions.

Commented [HM21]: These are narrower grounds for discipline than that for optometrist (see, BPC section 3110) and different than that for nonresident contacts lens dispensers (see, BPC section 2546.7) and for SLD/CLD (see, BPC sections 2559.3 and 2563)

The State Board of Optometry shall have the authority to inspect any premises at which the business of a registered dispensing optician is colocated with the practice of an optometrist, for the purposes of determining compliance with Section 655. The inspection may include the review of any written lease agreement between the registered dispensing optician and the optometrist or between the optometrist and the health plan. Failure to comply with the inspection or any request for information by the board may subject the party to disciplinary action. The board shall provide a copy of its inspection results, if applicable, to the Department of Managed Health Care.

(a) Notwithstanding any other law, subsequent to the effective date of this section and until January 1, 2019, any individual, corporation, or firm operating as a registered dispensing optician under this chapter before the effective date of this section, or an employee of such an entity, shall not be subject to any action for engaging in conduct prohibited by Section 2556 or Section 655 as those sections existed prior to the effective date of this bill, except that a registrant shall be subject to discipline for duplicating or changing lenses without a prescription or order from a person duly licensed to issue the same.

(b) Nothing in this section shall be construed to imply or suggest that a person registered under this ~~chapter~~ [article](#) is in violation of or in compliance with the law.

(c) This section shall not apply to any business relationships prohibited by Section 2556 commencing registration or operations on or after the effective date of this section.

(d) Subsequent to the effective date of this section and until January 1, 2019, nothing in this section shall prohibit an individual, corporation, or firm operating as a registered dispensing optician from engaging in a business relationship with an optometrist licensed pursuant to ~~Chapter 7 (commencing with Section 3000)~~ [this chapter](#) before the effective date of this section at locations registered with the Medical Board of California before the effective date of this section.

(e) This section does not apply to any administrative action pending, litigation pending, cause for discipline, or cause of action accruing prior to September 1, 2015.

(f) Any registered dispensing optician or optical company that owns a health plan that employs optometrists, subject to this section, shall comply with the following milestones:

(1) By January 1, 2017, 15 percent of its locations shall no longer employ an optometrist.

(2) By August 1, 2017, 45 percent of its locations shall no longer employ an optometrist.

(3) By January 1, 2019, 100 percent of its locations shall no longer employ an optometrist.

(g) Any registered dispensing optician or optical company that owns a health plan that employs optometrists shall report to the State Board of Optometry in writing as to whether it has met each of the milestones in subdivision (f) within 30 days of each milestone. The State Board of Optometry shall provide those reports as soon as it receives them to the director and the Legislature. The report to the Legislature shall be submitted in compliance with Section 9795 of the Government Code.

(h) (1) Notwithstanding any other law and in addition to any action available to the State Board of Optometry, the State Board of Optometry may issue a citation containing an order of abatement, an order to pay an administrative fine, or both, to an optical company, an optometrist, or a registered dispensing optician for a violation of this section. The administrative fine shall not exceed fifty thousand dollars (\$50,000). In assessing the amount of the fine, the board shall give due consideration to all of the following:

- (A) The gravity of the violation.
- (B) The good faith of the cited person or entity.
- (C) The history of previous violations of the same or similar nature.
- (D) Evidence that the violation was or was not willful.
- (E) The extent to which the cited person or entity has cooperated with the board's

investigation.

(F) The extent to which the cited person or entity has mitigated or attempted to mitigate any damage or injury caused by the violation.

(G) Any other factors as justice may require.

(2) A citation or fine assessment issued pursuant to a citation shall inform the cited person or entity that if a hearing is desired to contest the finding of a violation, that hearing shall be requested by written notice to the board within 30 days of the date of issuance of the citation or assessment. If a hearing is not requested pursuant to this section, payment of any fine shall not constitute an admission of the violation charged. Hearings shall be held pursuant to Chapter 5 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the Government Code.

(3) The board shall adopt regulations to implement a system for the issuance of citations, administrative fines, and orders of abatement authorized by this section. The regulations shall include provisions for both of the following:

(A) The issuance of a citation without an administrative fine.

(B) The opportunity for a cited person or entity to have an informal conference with the executive officer of the board in addition to the hearing described in paragraph (2).

(4) The failure of a licensee to pay a fine within 30 days of the date of assessment, unless the citation is being appealed, may result in disciplinary action being taken by the board. Where a citation is not contested and a fine is not paid, the full amount of the assessed fine shall be added to the fee for renewal of the license. A license shall not be renewed without payment of the renewal fee and fine.

(5) Notwithstanding any other law, if a fine is paid to satisfy an assessment based on the finding of a violation, payment of the fine shall be represented as satisfactory resolution of the matter for purposes of public disclosure.

(i) Administrative fines collected pursuant to this section shall be deposited in the Dispensing Opticians Fund. It is the intent of the Legislature that moneys collected as fines and deposited in the fund be used by the board primarily for enforcement purposes.

§ 2561. Qualifications for registration; Denial of registration

An individual shall apply for registration as a registered contact lens dispenser on forms prescribed by the board. The board shall register an individual as a registered contact lens dispenser upon satisfactory proof that the individual has passed the contact lens registry examination of the National Committee of Contact Lens Examiners or any successor agency to that committee. In the event the board should ever find after hearing that the registry examination is not appropriate to determine entry level competence as a contact lens dispenser or is not designed to measure specific job performance requirements, the board may thereafter from time to time prescribe or administer a written examination that meets those specifications. If an applicant for renewal has not engaged in the full-time or substantial part-time practice of fitting and adjusting contact lenses within the last five years then the board may require the applicant to take and pass the examination referred to in this section as a condition of registration. Any examination administered by the board shall be given at least twice each year on dates publicly announced at least 90 days before the examination dates. The board is authorized to contract with the National Committee of Contact Lens Examiners or any successor agency to that committee to provide that the registry examination is given at least twice each year on dates publicly announced at least 90 days before the examination dates.

The board may deny registration where there are grounds for denial under the provisions of Division 1.5 (commencing with Section 475).

The board shall issue a certificate to each qualified individual stating that the individual is a registered contact lens dispenser.

A registered contact lens dispenser may use that designation, but shall not hold himself or herself out in advertisements or otherwise as a specialist in fitting and adjusting contact lenses.
